Valerii Vasianovych

{DevOps Engineer}

CONTACTS + (48) - 795-791-175 {valerii.vasianovych.2003@gmail.com}

MAIN INFO About me

I am a DevOps Engineer with experience and a background in working with frontend developers. Additionally, I am a second-year Telecommunication student. I have experience with Linux OS, scripting, Ansible, Terraform, CI/CD, Docker, monitoring, and configuring web servers. I hold certifications including Cisco CCNAv7, PCAP: Programming Essentials in Python, and Google IT Support.

I am enthusiastic about learning, punctual, and responsible. Currently, I am focusing on personal projects on GitHub and pursuing AWS certifications. I am flexible in choosing my workplace and open to new growth opportunities.

EXPERIENCE Project with Boto3 and AWS S3 Bucket

- I have created a Python program using the Boto3 AWS SDK for manipulation with the S3 service. This program allows you to view the contents of a bucket, download data from it, or upload data to an S3 bucket.

Creation AWS Resources with Terraform

- I've used Terraform to create multiple EC2 instances on AWS. I've specified t2.micro instances, configured open ports, and enabled SSH connections for this project.

Pipeline with Github Action, S3 Bucket, Elastic Beanstalk

- I've made a project using GitHub Actions, AWS S3, and Elastic Beanstalk. After each push, GitHub Actions copies the Flask app archive to S3 and deploys the updated version to Elastic Beanstalk.

Project with Ansible, Docker, Jenkins, GCP Cloud, Nginx

- I developed automation using Ansible, which deployed Nginx Reverse Proxy and Jenkins on GCP VM instances using Docker Compose. After launching the containers, Ansible automatically configured Let's Encrypt TLS certificates for Jenkins through the Nginx Reverse Proxy container.

I continue learning and working on new projects.

SKILLS

OS	Scripting	Containerization	CI	Automation
Linux	Bash/Python	Docker	Jenkins	Ansible
Cloud	Web-Servers	Version Control	Languages	Monitoring
AWS	Nginx/Apache	Git	UA/PL/EN/RUS	Prometheus

EDUCATION 2ND-YEAR STUDENT AT KIELCE UNIVERSITY OF TECHNOLOGY, MAJORING IN ICT.

CERT
